PROFESSIONAL SUMMARY

Senior IT professional with 15+ years of experience across corporate and multinational environments, including more than nine years supporting global operations at RCI / Travel + Leisure. Experienced in complex organizations where formal processes, documentation, traceability, security and cross-team coordination underpin daily operations.

Background in global L2 support, endpoint management, Microsoft 365, Intune, Autopilot and ServiceNow. Experienced in coordinating complex incidents and business-impacting technology changes across Engineering, Security, Logical Access, vendors and business stakeholders. Experience as an escalation point, mentor and trusted technical contact for local management.

Combines hands-on support with process improvement, automation and AI-assisted workflows to reduce repetitive work, strengthen documentation and improve IT operations.

TECHNICAL SKILLS

- **Endpoint & Workplace:** Windows 10/11, Microsoft Intune, Windows Autopilot, BitLocker, Jamf, macOS and mobile device support.
- **Microsoft 365 & ITSM:** Outlook, Teams, SharePoint, Copilot, ServiceNow, incident/request management and knowledge documentation.
- **Security & Connectivity:** Zscaler administration and ZPA, CrowdStrike endpoint support, VPN troubleshooting and Meraki Wi-Fi.
- **Automation & AI:** Power Automate Desktop, BAT scripting, PowerShell working knowledge; AI-assisted research, troubleshooting and documentation.
- **IT Operations:** Hardware diagnostics, endpoint lifecycle, asset management, vendor management, meeting-room systems and print services.
- **Development & Delivery:** React, Vite, Tailwind CSS, Supabase/PostgreSQL, Git/GitHub and Vercel.

PROFESSIONAL EXPERIENCE

RCI (Travel + Leisure Co.)

April 2017 - September 2026

Sr. Help Desk Support Analyst, Global Effectiveness & IT Services

January 2022 - September 2026

Help Desk Support Analyst, Global Effectiveness & IT Services

April 2017 - December 2021

Promoted in January 2022, taking on greater responsibility for project coordination, technical escalations, process improvement and team support.

Selected contributions across both roles:

- Worked within a global L2 organization, in a LATAM team of approximately six technicians supporting around 850 users. Assisted users across the US, Europe and Asia during critical incidents and high demand, following corporate incident, escalation, documentation and security procedures.
- Served as a key escalation point for complex LATAM incidents and a trusted technical contact for local management, coordinating multidisciplinary teams and vendors through resolution. Trained at least three junior technicians and supported operational coverage planning.
- Worked with Engineering and Senior Support to validate Windows Autopilot workflows for home and office use; successfully provisioned 45 laptops and documented the process in ServiceNow.
- Standardized monthly onboarding for approximately 8–20 new hires, introducing parallel device preparation and delivering guidance on corporate security and support channels.

RCI (continued)

- Led endpoint inventory reconciliation through structured user outreach and AI-assisted data consolidation. Automated processing of approximately 150 inventory-related ServiceNow tickets/tasks, avoiding an estimated 12.5 hours of manual work.
- Created post-Autopilot BAT automation for application, file and framework installation; designed an email-to-ServiceNow workflow with predefined incident details and urgency.
- Centralized technical procedures in an internal HTML knowledge site and applied AI-assisted research, troubleshooting and documentation within enterprise security constraints.
- Supported global Windows 7-to-10 and Windows 10-to-11 migrations and hardware refresh cycles of approximately 100 endpoints annually. Cumulative renewal initiatives involved more than 200 laptops and more than 500 PCs.
- Supported business-critical global changes, including the Reflection 16-to-16.2 migration, and recovered endpoints during the global CrowdStrike Windows incident.

ITS — Infrastructure Technology Services

Technical Help Desk Specialist | May 2016 - April 2017

Supported Telefónica Business Solutions and clients in Zonamerica.

Infocorp — Outsourcing Department

Technical Help Desk Specialist | December 2012 - May 2016

Selected client assignments:

- **Johnson & Johnson — IT Coordinator & Technical Help Desk Specialist** | July 2014 - January 2016. Supported Medical, Consumer and Janssen; coordinated vendors, purchasing, a Uruguay-to-Brazil file server migration and an office relocation with data center setup.
- **CPA Ferrere — Technical Help Desk Specialist** | December 2012 - April 2014. Supported approximately 500 users across Uruguay, Paraguay, Bolivia and Ecuador; participated in an office relocation.

Urudata — Outsourced assignment to Banco Itaú

Technical Support Help Desk | June 2011 - August 2012

Supported approximately 500 users across head office and branches throughout Uruguay.

HYC Hardware

Field Technician | October 2010 - June 2011

Performed preventive maintenance and repairs on PCs, POS systems, printers and scanners.

INDEPENDENT PROJECTS / FREELANCE WORK

AltasWeb — Personal Freelance & Product Development Project

January 2025 - Present

- Build React-based websites and applications from requirements through deployment, covering UX, integrations, QA and client support. Use Supabase, Git/GitHub, Vercel, PowerShell automation and AI-assisted development.
- **Selected products:** AltasTrack, role-based incident management; AltasWeb Bookings, a multi-tenant booking platform in active development; PrimerPaso, a reusable website product for psychologists and independent professionals.

CERTIFICATIONS & ADDITIONAL TRAINING

- **MCSA: Office 365 — Microsoft** (Legacy Certification).
- **Google IT Support Professional Certificate — Google / Coursera.**
- **Dell TechDirect — Client Systems / Self-Dispatch training.**
- **macOS Support — Mundo Mac:** Additional technical training.
